

Museum Quality Canvas Mounts

Unconditional Lifetime Guarantee

Premium Canvas Satin

Made from a durable blend of 65% Polyester and 35% Cotton, this unique heavyweight, quality canvas utilizes a tight weave that is ideal for photographic and fine art reproductions. It offers a high resolution coating that is pliable enough to withstand stretching without sagging, and displays a subtle texture for a true artistic look and feel. Combined with incredible color reproduction, Premium Canvas Satin provides a high gloss finish, instant dry versatility, and water resistance to allow for all applications that require the highest image quality and an archival display life.

Archival Pigments

We use the latest technology of pigment inks to provide our customers with a product that will last a life time. Currently, we are using Epson Ultra Chrome HDR inks which produce the widest color gamut ever from a large format printer.

Finishing

Each artwork is hand stretched onto a wooden frame and surfaced with three hand brushed layers of acrylic that provide a waterproof finish that will protect the canvas from water or UV light damage. The canvas can easily be cleaned with a damp cloth without damaging it.
